

Literacy

We will be reading a selection of non-fiction texts to support our topic work. These will focus on historical events in British history and support our writing work. We will be writing diary entries as if we had experienced the Great Fire of London.

Art and DT

We are going to be learning printing and collage techniques and cooking healthy snacks. We will learn about the artist Matisse.

History

History will link with our writing lessons as we discover what the diary of Samuel Pepys tells us about the past. We will learn how building design led to the fire spreading so quickly.

Year 2 Spring 2

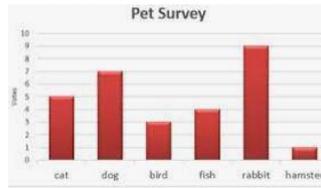

Science

We will find out about the life cycle of a plant. We will get ourselves outside and into nature to closely observe the different types of plants we have in our local area. We will look closely at what plants need to thrive and will learn how seeds grow.

Computing

We will be learning how to present data that we have collected as a class.

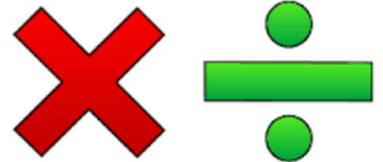

RE

In RE we will be continuing our learning about Judaism and will study Hanukkah and its origins.

Maths

We will be focussing on multiplication and division this half-term. We will be refining our existing knowledge of grouping and sharing and building on our already excellent ability to count in 2s, 5s and 10s.

Physical Education

We will be developing our ball skills across a number of sports.

Music

In Music, we will be working on our rhythm and staying on beat as we learn the basics of how to improvise along to a piece of music.

RSHE

Our RSHE topic is

HEALTHY ME!

We will be thinking about lots of ways to keep our minds and bodies healthy.
