

Writing

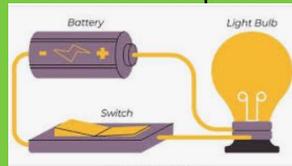

This half term we will use our developing writing skills to complete a fact file all about KTPS.

We will also complete a poetry unit based on 'I Rise' by Maya Angelou

DT

We will be using what we learn about electricity in our science topic to create our own light up quiz boards. We will have to plan and design these before working together to create finished pieces.

Maths

We will revise what we know about measure and find out more about metres and kilometres. We will measure perimeter and solve missing number problems.

We will find out improper fractions and mixed numbers. We will add and subtract fractions.

We will continue to work on our fluency of all tables up to 12x12 in readiness for the Multiplication Check.

French

This half term in French we will be learning animal names as well as recapping on our previous learning.

PE

This half term we will be working on hockey skills and will be building up to taking part in full competitive matches.

We will also be going to Longtown Outdoor Centre and take part in climbing, canoeing, caving and archery.

RSHE

Our topic this half term is 'Healthy Me'. We will explore healthy friendships and also find out about the effects of peer pressure. We will talk about the reason people choose to vape or smoke.

Geography

The United Kingdom

This half term we will be finding out about the countries that make up the United Kingdom.

We will carry out fieldwork in Kingstone to find out about land use and human impact on the village, over time.

During our Residential to Longtown we will read maps as we walk up the Cat's Back.

Science

Our science topic is electricity. We will spend time creating circuits and naming the components needed to ensure they work. We will use specific vocabulary to explain our findings.

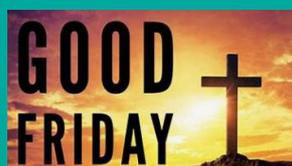

Religious Education

Our Key question is:

Why do Christians call the day Jesus died 'Good Friday'?

We will have a particular focus on feelings and emotions felt by Christians during this important time of the year.

Computing

This half term, our Computing lessons will focus on data. We will be learning to collect, interrogate and manipulate data using Microsoft Excel, alongside other methods.

Excel Online
